1950 double decker bus, PWL413

This double decker bus was built so it could go under the low Oxford railway bridge.

In a running shed or in the workshop.

Found it!

☐

1860 Boneshaker bicycle

The saddle of Boneshakers was on a spring, so the rider had a bumpy ride. Hence the name!

Just inside the bus museum entrance on the right. Other examples are in the Historic Cycle Collection on the first floor of the Morris Museum

Found it!

☐
