

The logo for kimyo, featuring the word "kimyo" in white lowercase letters on an orange trapezoidal background.

Take this home and start your collection!

Visit [kimyo.co.uk/collect](https://kimyo.co.uk/collect) and enter the following code:

**2PE4B**

## Label Maker

- 1) Select an item from kimyo – this could be from a given category or location, or you can select an item at random

**Now, think about the label that would go along with that item in a museum.**

*What would you want it to say?*

*What would you want to know about the item?*

*Is there anything that you don't need to know about the item?*

- 2) Your task is to **create a museum label** for the item.

It can **either** be based on the information provided about the item on kimyo or the location's own website **or** you can use your imagination and create your own description.

(**or** you could write an accurate label **and** an imaginative/alternative one!)

If you are creating your own label, think about:

- What the item is called
- How old the item is
- What you would use the item for/where you would find the item
- A brief description of how the item works/is used
- Any other interesting facts about the item
