

Exploring an Item

- 1) Select an item.

Annotate – **What do you notice?** (What is it made of, what size is it, what colour, what can you use it for, what other questions do you have?)

- 2) Select two additional items from the same topic.

What's the same and **what's different** about the three items?
Which would be the **odd one out**, and why?

- 3) **What do you already know** about the topic that the item is from? **What do you want to know?**
Use kimyo to find out if any other locations nearby have items from the same topic that you can visit.
